BUTCOMBE BREWERY

We began life at a time of cultural, social and political change, crafting beer before 'craft beer' was even a thing. A lot of hard graft later, by staying true to our beliefs and Bristolian roots, it looks like owning a resolutely maverick brewing company isn't such a crazy idea after all. By going against the grain we made our own statement with every pint.

SUSTAINABILITY IN SOUTH AFRICA

JOURNEY'S END

Sustainable and ethical philosophies guide everything they do at Journey's End. From using lightweight, recycled packaging and encouraging eagle owls into the vineyards as nature's pesticides, to providing meals for the community. They are not thinking short term - they are thinking about the next thousand years. And as founding members of the Sustainable Wine Roundtable they are helping others do the same.

Taste the South African sunshine in their wines knowing they are from a vineyard making a positive impact on the planet.
